WHY HIGHSPRING

Transform financial complexity into competitive advantage.

01

Big-firm and industry experience

We blend both, and because we don't perform audits, we avoid the independence conflicts global audit firms face.

02

Hands-on expertise that scales

Consulting, managed services, and talent solutions embed seasoned professionals in your team.

03

Gains from the first month

Close processes can speed up immediately, and many clients see improvements within the first month.

FEATURED CASE STUDY · REVENUE RECOGNITION

AI helped move 90,000 contracts into NetSuite revenue recognition, weeks ahead of plan.

A PE-backed curriculum software company ran revenue recognition in spreadsheets outside its ERP. Highspring paired technical accounting with AI-enabled accelerators for data prep, reconciliation, and validation, then stood up an audit-ready ASC 606 platform.
