TECHNOLOGY & DIGITAL

Local expertise. Enterprise delivery. One integrated team.

CONSULTING

TALENT SOLUTIONS

MANAGED SERVICES

Talent, advisory, and managed services for technology leaders who need the right people and the right outcome, without juggling firms.

Highspring
Consulting, digital, and managed services that design, build, and run technology.

Vaco by Highspring
Our talent brand: recruiters placing technology professionals.

2002	$1B+	45+	7
FOUNDED	REVENUE	GLOBAL OFFICES	INTERNATIONAL DELIVERY CENTERS

WHY US

Technology expertise. Flexible delivery. Real outcomes.

Agility at work: we flex as your priorities shift.

Deep technology expertise

Specialists across applications, cloud, data, AI, infrastructure, and cybersecurity.

One partner. Multiple ways to engage.

From individual experts to advisory, project teams, and managed services.

Built to flex with you

Scale expertise and delivery as priorities, programs, and needs change.

Strategy through execution

Connect technology direction to the people and delivery needed to get it done.

Business-first approach

Technology decisions grounded in the outcomes your organization needs.

End-to-end accountability

From planning and implementation through ongoing operations and support.

HOW WE DELIVER

Tailored engagement models.

Pick the level of help you need, from a single expert to a team that owns the outcome.

EXTENDING YOUR TEAM

Talent Solutions

We provide the talent, you lead the work.

Staff augmentation, direct hire, and executive search.

SUPPORTING YOU

Expert Advisory

We guide the strategy, you execute.

Former CIOs, interim CTOs and CDOs, and architects.

WORKING WITH YOU

Co-Delivery

Your roadmap, our team, together.

Global squads across software, cloud, data, and AI.

RUNNING IT FOR YOU

Managed Outcomes

We own the outcome, end to end.

Highspring runs the work, from delivery to ongoing support.

YOU LEAD — HIGHSPRING OWNS THE OUTCOME

TALENT SOLUTIONS · VACO BY HIGHSPRING

Bridging the gap between talent and technology.

Technology recruiters who find, backfill, and scale your teams, with professionals who bring domain knowledge, business alignment, and technical skill.

Applications, Data & AI

- Full-Stack Developers
- QA & Test Automation Engineers
- BI & Analytics Developers
- Data Engineers
- AI & Machine Learning Engineers
- Enterprise Application Developers
- Web Developers

Infrastructure, Cloud & End User

- DevOps Engineers
- Cloud Engineers & Architects
- Platform & Kubernetes Engineers
- Network & Systems Engineers
- Systems Administrators
- Desktop & Service Desk Technicians
- Site Reliability Engineers

Cybersecurity

- GRC Analysts & Managers
- Identity & Access Management Engineers
- SOC Analysts
- Application Security Engineers
- DevSecOps Engineers
- Network & Cloud Security Engineers
- Incident Response & Threat Intelligence Analysts

Project Delivery & Agility

- Agile Coaches
- Agile Transformation Leads
- Business Analysts
- Process Improvement Analysts
- Project & Program Managers
- Portfolio Managers

Digital, Product & UX

- Product Managers & Product Owners
- UX Researchers
- UI/UX Designers
- Product Designers
- Conversion Optimization Specialists
- Web & App Designers

IT Leadership

- CIOs, CTOs, CISOs & VPs of Technology
- Interim & Fractional CIOs and CTOs
- Transformation & Modernization Leaders
- Post-Merger Integration Leaders

HOW WE ENGAGE

The right model for every technology hiring need.

Interim & project-based
Consultants and project teams for launches, migrations, and backfills.

Contract-to-hire
Evaluate fit on the job before you make a permanent offer.

Direct hire
Permanent placements, from specialists to department leaders.

Interim leadership
Interim CIOs, CTOs, and technical leaders who step in fast.

Executive search
Retained search for CIO, CTO, CISO, and VP of Technology roles.

Proven results

TECHNOLOGY ADVISORY

Decide with confidence, then deliver.

Former CIOs, CTOs, and transformation leaders who set the operating model, get the deal right, pick the platform, and see the implementation through.

STRATEGY & OPERATING MODEL

Technology strategy, risk & governance
Architecture, governance, and cyber risk aligned to business priorities.

IT operating model
Roles, sourcing, and vendor spend, so IT runs like a business.

IT cost optimization
License, cloud, and contract spend benchmarked and cut without slowing delivery.

Interim IT leadership
Interim CIO, CTO, and CDO who have sat in your seat.

PLATFORMS & PROGRAMS

Software selection
Business-first, platform-agnostic ERP, EPM, CRM, and ITSM selection through contract.

ERP & enterprise systems
Modernize the systems that run your business to reduce complexity and support what's next.

Implementation leadership
Program and project management, data migration, integration, testing, and cutover.

Change management & hypercare
Adoption, training, and stabilization so the platform sticks after go-live.

M&A ADVISORY · YOUR DEAL, FROM SIGNING TO EXIT

Protect deal value from diligence to exit.

01

Transaction

Know what you're buying

- IT due diligence: technical debt and cyber exposure
- IT synergies sized before you sign
- Integration roadmap and Day 1 plan

02

Transition

Stabilize the first 100 days

- Integration management office run by Highspring
- Tenant, email, and user migration without disruption
- TSAs exited on schedule

03

Transformation

Grow value to exit

- ERP and infrastructure consolidated
- License and vendor costs cut
- Data and AI put to work

$10.17M

MODELED EBITDA SYNERGIES

M&A integration · $4B fund's security business

Synergies modeled from one integration roadmap after acquiring a larger rival; $2.58M executed in 90 days.

See more details →

1 platform

SELECTED & IMPLEMENTED

PE-backed legal services · Software selection

A unified, scalable business platform selected and delivered to position the company for growth.

See more details →

15

HOSPITALS MIGRATED

Post-merger integration · 23-hospital system

A stalled EMR modernization unblocked: 2,000+ computers and 4,000+ users migrated across 15 hospitals.

See more details →

IT MANAGED SERVICES · SERVICE DESK · PC DEPOT

Always-on support. Every device ready.

A 24/7 U.S.-based service desk paired with end-to-end PC depot and asset management, so your people stay productive and every device stays tracked, secured, and ready.

IT SERVICE MANAGEMENT

- 24/7 U.S.-based desk
- Network monitoring
- Application support
- DevOps automation
- Incident resolution
- Desktop support
- Tier 3 engineering
- SLA & KPI reporting

PC DEPOT & ASSET MANAGEMENT

- Automated discovery
- Device imaging
- Kitting & tagging
- Advance exchange
- CMDB alignment
- Zero-touch setup
- Onsite hypercare
- Certified data wipe

TIERED SUPPORT, ONE TEAM

Tier 1 resolves, so Tier 2 supports and Tier 3 engineers.

1

Resolve

First-call resolution

Password resets, access, how-to, and triage against a maintained knowledge base, 24/7 including holidays.

2

Support

Desktop & application

Escalations, device and application issues, onsite field services, and depot coordination.

3

Engineer

Infrastructure & automation

Network, cloud, and infrastructure engineering, DevOps automation, and root-cause fixes that shrink ticket volume.

FEATURED CASE STUDY · UNIFIED IT SERVICES

One partner now runs the service desk, field services, and PC depot for a national home health leader.

Four separate IT vendors meant uneven service and frustrated clinicians. Highspring stood up an onshore, healthcare-savvy service desk, field support across 500+ U.S. locations, and end-to-end PC depot operations.
